Unikátní neznačený českobudějovický třicetikrejcar 1569

Praha a České Budějovice – ještě k přidělení neznačených ražeb z let 1568–1570 z razidel Nikla Milicze

Tomáš SMĚLÝ

NL 64, 2009, s. 12–33

A unique unmarked thirty kreuzer coin from Budweis, 1569. Prague and Budweis – attribution of unmarked coins of 1568–1570 struck from dies by Nickel Milicz

An unique no-mint-mark Bohemian thirty kreuzer piece from 1569 that was auctioned during the 124th auction at Lanz fits by its fabric to the group of unmarked coins of 1568–1570 struck from dies by Nickel Milicz. Ducats of 1568 and 1569, 60-kreuzer of 1569, 10-kreuzer of 1569, 2-kreuzers of 1568, 1569 and 1570, plus undated kreuzers of 1568–1570 also belong to this group. Some muled ducats, 2-kreuzers and kreuzers struck from obverse dies of Milicz and reverse dies of unknown die-engraver represent another related group. The ducats, 2-kreuzers and kreuzers have been produced in the Prague mint. The 60-kreuzers, 30-kreuzers and 10-kreuzers have been struck in the newly founded mint in Budweis immediately after its opening in 1569. The very first die-engraver in Budweis was not Michael Stolz, but Nickel Milicz.

30-kreuzer; 1569; Maximilian II (1564–1576), Nickel Milicz; Budweis [CZ]

30krejcar; 1569; Maxmilián II. (1564–1576), Nikl Milicz; České Budějovice.
