## Nálezy římských mincí z Jalšové a Sence.

K problematice výskytu římských zlatých ražeb ze 2. poloviny 1. století na Slovensku

Marek BUDAJ Jiří MILITKÝ

## Finds of Roman coins from Jalšová and Senec. Contribution to appearance of the gold Roman coins of the second half of the 1st century in Slovakia

Two groups of the Roman aurei and denarii from Jelšová and the surroundings of Senec are discussed. The exact finding specifications are not known, and the coins were documented via their photographs only. The pieces from Jalšová represent a group find evidently, but the coins from Senec could be regarded as single finds from the settlement. Three aurei from Jalšová represent the largest group of gold coins of the 1st century discovered in Slovakia up to date. These gold specimens significantly enrich information about intensity of circulation of the aurei in the territory of the Quadi.

Slovakia; the Germanic tribes; the Quadi; denarius; aureus.

O Slovensko; Germáni; Kvádové; denár; aureus.
