Introduction

This part of the Journal of the National Museum (Prague), Natural History Series, contains collected papers from the 11th Slovak-Polish-Czech Paleontological Conference to be held in the National Museum on 14–16 September 2010. This traditional meeting is organized every year in the Czech Republic or Slovakia or Poland and is a lively platform for exchange of ideas, information, results, and is also a place for meetings between colleagues from distant places, for discussions and preparation of new projects.

The papers included here represent the most recent results of ongoing research and are entitled “Advances in Central European Paleontology”. We hope you will find them useful for your own studies.
