## Commemorative coins issued in 2015

Czech National Bank issued eight commemorative coins in 2015. They are represented by four silver 200-crown pieces celebrating the following anniversaries: the 750th anniversary of foundation of České Budějovice (Budweis), the 100th anniversary of deciphering of the Hittite language by Bedřich Hrozný, the 200th birth anniversary of Jan Perner and the 200th anniversary of introduction of the steam car by Josef Božek. Another issue is represented by one silver 500-crown piece celebrating the 250th birth anniversary of Václav Thám. The last gold commemorative pieces from the cycle called 'Bridges' were produced: the 'Žďákovský' arched Bridge and the 'Mariánský' Bridge in Ústí nad Labem. In the same year, one gold jubilee 10,000-crown issue was struck reminding the 600th anniversary of burning to death of Master Jan Hus.
