

ERRATUM

ZHANG W.-X. & YIN Z.-W. 2023: *Feabatrus* gen. nov., a conspicuous new genus of Batrisitae from Myanmar and China (Coleoptera: Staphylinidae: Pselaphinae). *Acta Entomologica Musei Nationalis Pragae* 63 (1): 165–175. <https://doi.org/10.37520/aemnp.2023.008>

In the originally published paper the distribution of one of the species, *Feabatrus leonardoi* Zhang & Yin, 2023, must be corrected as follows:

- (1) On page 171 change ‘Carin Chebà (approximate coordinate 19°11’N, 96°53’E)’ to ‘Carin Chebà (approximate coordinate 19°13’N, 96°35’E)’.
- (2) On page 174 change ‘Distribution. Southern Myanmar: Tanintharyi’ to ‘Distribution. Central Myanmar: northern Kayin State’.

We thank Shûhei Nomura of the National Museum of Nature and Science, Tsukuba, Japan for pointing out this mistake.
