Emergency money-orders from Třebíč revisited

This article supplements the previously published study on the emergency money-orders from Třebíč (Numismatické listy 48,1993). Some previously unclear circumstances of issuing of some denominations are explained in detail by the newly discovered written source – an audit of the municipal emergency money-orders from 1914. Based on this documentation, it is possible to reconstruct in detail the process of issuing of all municipal emergency money-orders in Třebíč.
