ROHÁČEK J. & BARBER K. N. 2016: Nearctic Anthomyzidae: a monograph of *Anthomyza* and allied genera (Diptera). *Acta Entomologica Musei Nationalis Pragae* 56(supplementum): 1–412.

A large number of errata was uncovered during the labeling of the type material after meeting our publication deadline. It is expedient to present the corrected text lines as they begin and close in the original publication. Occasionally, an italicized explanatory phrase is inserted in parentheses but usually we reference only the page and line numbers. **The corrected text is underlined.**
